

WOMEN WHO CANNOT WORK

Read Mrs. Corley's Letter and Benefit by Her Experience

Edmund, S.C.—"I was run down with nervousness and female trouble and suffered every month. I was not able to do any work and tried a lot of medicine, but got no relief. I saw your medicine advertised in a little book that was thrown in my door, and I had not taken two bottles of Lydia E. Pinkham's Vegetable Compound before I could see it was helping me. I am keeping house now and am able to do all of my work. I cannot say enough for your medicine. It has done more for me than any doctor. I have not paper enough to tell you how much it has done for me and for my friends. You may print this letter if you wish."—ELIZABETH C. CORLEY, care of A. P. Corley, Edmund, S.C.

Ability to stand the strain of work is the privilege of the strong and healthy, but how our hearts ache for the weak and sickly women struggling with their daily rounds of household duties, with backaches, headaches, nervousness and almost every movement brings a new pain. Why will not the mass of letters from women all over this country, which we have been publishing, convince such women that Lydia E. Pinkham's Vegetable Compound will help them just as surely as it did Mrs. Corley?

HOW DOCTORS TREAT COLDS AND THE FLU

First Step in Treatment Is a Brisk Purgative With Calotabs, the Purified and Refined Calomel Tablets that are Nausealess, Safe and Sure.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess calomel tablets called Calotabs, which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza and one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful.—(Adv.)

It's difficult to make light of the shadow of suspicion.

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

'I have used the 'Pleasant Pellets' for constipation for years—am never without them. 'I always recommend Dr. Pierce's remedies.'—WM. E. REYNOLDS, Route 1.

Dr. Pierce's medicines contain no alcohol and are sold by all good druggists.

MIDDLE WEST HIT BY EASTER STORM

Snow and Freezing Weather Cause Heavy Damage in Many Sections,

WAS NEAR ZERO IN NEBRASKA

At Tulsa, Oklahoma, Big Property Loss Was Suffered from Hail—Low Temperatures in Kansas.

Kansas City.—The storm which swept Kansas City and vicinity was general over this section of the middle West, reports from four states, Missouri, Kansas, Nebraska and Oklahoma, indicate. Snow, hail, rain and wind combined in several places to make Easter Sunday a typical winter day.

At night a storm which struck Tulsa in the afternoon was still in progress. In north central Nebraska the temperature fell close to the zero mark early in the day.

Evidently the blizzard moved from north to south rapidly, as Nebraska was recovering about the same time it was getting under way in Oklahoma.

Damage to Fruit Reported.

Heavy damage to fruit and crops around Muskogee and Sedalia was indicated, though at Wichita a good chance for fruit to survive was seen unless the mercury fell unexpectedly low last night. A drop to 24 degrees was predicted and orchardists were busy getting smudge pots into service.

Around Sedalia fruit trees are in full bloom and if an early prediction of freezing temperatures held good last night, big damage is probable. In the afternoon it was not extremely cold there, snow melting as rapidly as it fell.

Almost a Tornado in Nebraska.

Damage from high winds was general in northern Nebraska, the storm almost reaching the proportions of a tornado between Hastings and Trumbull. Livestock was killed, telephone poles leveled and buildings demolished.

The worst hail storm in years struck Tulsa in the afternoon. Big damage was done to orchards, gardens were beaten into the ground, trees stripped of foliage and thousands of window panes broken. One greenhouse reported twenty-five thousand feet of glass broken. The temperature did not go below 31 degrees. The hail visited Muskogee later in the day, destroying thousands of dollars worth of property there.

From Springfield, Mo., and Ottawa, Kas., came reports of heavy sleet. High winds bordering on twister proportions caused damage to telephone and telegraph wires at Peabody, Kas., and Gardner, Kas. Gardner is about thirty miles south of here.

The blizzard was a repetition of last year's Easter Sunday weather, though perhaps on a milder scale.

GERMAN STRIKE FEAR PAST

Government Leaders at Berlin See No Immediate Danger in Uprisings of the Reds.

Berlin.—Belief that immediate danger of a co-ordinated general strike in the Central German industrial regions and its possible spread to other sections has been banished is expressed by government leaders here. They take this attitude because of the Easter holidays, which have come at the critical period, in the government's view.

In the meantime, faith is pinned to the ability of five thousand Prussian security police to stamp out the lawlessness still rampant. Many of the districts here, up to Easter, were in the grip of Communists, who were everywhere leaving behind them dynamited public and private buildings and railway bridges and looted shops. Reports were received that the rioters were fortifying themselves in hilly districts.

FOUND 11TH NEGRO VICTIM

Monticello, Ga.—Two more bodies of negroes were recovered from the Alcovy River here, making a total of eleven bodies found since the authorities began an investigation of charge of peonage and murder against John Williams, a Jasper County farmer. Like the first three, found several days ago, the bodies just recovered were chained together and weighted down with sacks of stone and iron.

According to a confession made to department of justice agents by Clyde Manning, a negro employed by Williams, the eleven negroes were slain and their bodies made away with in order to prevent them from testifying against Williams in the peonage charges.

He Flew 164 Miles an Hour, Los Angeles.—Eddie Rickenbacker, American ace in the world war, made a new record when he flew from Oakland to Los Angeles, a distance of 385 miles, in two hours and thirty-two minutes.

HAD ONLY ONE HORSE LEFT

Afflicted Driver Surely Right When He Referred to "Terrible Eek-Wine Mortality."

He was sitting on the curb, looking at his car, and as we passed by he greeted us so pleasantly that we must perforce stop and exchange a word with him, though he was a stranger.

"Car trouble?" we asked, idly.

"Lossa trouble," he acquiesced.

"Gotta forty horsepower car, there. An' thirty-nine o' them poor horses is dead. Terrible eek—eek—eek!"—he seemed unable to get any further, and he hiccupped.

"Terrible economic loss?" we suggested.

"Nope. Terrible eek-wine mortality!" he succeeded, triumphantly. "I had some o' this here, now, good natural alcohol," he went on, "an' I'd otal've give some of it to the engine. But I drank it. An' now I only got one hoss left."

He seemed about to weep, so we left him.—Cleveland Plain-Dealer.
